Leap Trail/Highway/Trail	Property/Fence Line	River
Railroad	Nonvisible Boundary	Glacier

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol only and the label for the boundary. These boundaries:

- 1 A "1" following a place name indicates that the place is also a false MCD; the false MCD may be an unincorporated place.
- 2 In 1990, the crews of vessels populated at sea was allocated to census tracts with a "98" prefix. An anchor symbol appeared on the 1990 maps locating a crew-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the anchor.
- 3 A "3" following a block number indicates that the block number is repeated elsewhere in the map.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- ¹ A "0" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- ² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- ³ A "*" following a block number indicates that the block number is repeated elsewhere in the block.
